### EXPERIENCE/SPECIAL SKILLS

I have been interested in acting since I was 9 years old, but my interest became more serious after being accepted by AMTC. I have already played the lead in a short student film, pursued further training, and developed the ability to do voice impressions and physical comedy. I can handle complex dialogue, strong emotion and physically demanding scenes. I also take direction (and re-direction) well, and I will be a dependable, professional and fun member of your cast.
